# About the School of Law CY Law and Political Science

CY Law and Political Sciences is one of the 4 graduate schools of CY Cergy Paris University.

Deeply engaged in international studies, CY Law has been the first French school of Law to create foreign law degree programs (in Anglo-American Law or in Spanish Law) entirely taught in English or Spanish. Our international students are offered therefore the opportunity to attend law courses in English, French or Spanish.

The School of Law has developed multiple partnerships with the business sector and it is a pioneer in the fields of corporate law, compliance and business ethics, real estate law and criminal financial law. In addition to its international and highly specialized faculty members, CY Law welcomes distinguished practitioners and professors from prestigious universities worldwide.

Two libraries holding more than 15,000 books and 85 e-journals are also accessible free of charges.

CY campus is surrounded by several shops, supermarkets and a big shopping mall, but if you prefer to immerse yourself in university life, you can try one of our campus restaurants and coffee shops.

## Campus life

### Social Integration at CY Cergy Paris University

#### Student associations

CY Cergy-Paris University is home to around 30 students' association including a local group of the European Law Students' Association (ELSA), the largest independent law student organization. ELSA Cergy and CY Law work closely to offer international students their best study experience by organizing cultural visits, parties and conferences. Since 2010, they have put in place a buddy program which pairs newcomer students with local students. The program aims to help international students with practical matters and facilitate their integration in France. We strongly believe that it is easier to enjoy your student life when you can count on someone!

#### French Language Center

Frequented by a large number of international students, French Language Center offers courses in French specially designed to allow international students to develop their communication skills and knowledge of French culture

Throughout the year, students can follow the six hour per week course in French on top of their main studies. Students receive full details of the program at the beginning of each semester.

A solid team of teachers provides lessons adapted to your level. The secretary is there to welcome you individually and assist with the follow up of each student.

#### Accommodation

The School of Law is dedicated to providing high-quality accommodations to its international students, that is why it has built several partnerships with housing platforms and private residence halls. Once selected to study at CY, international students receive personalized instructions to apply for accommodation.
